

## 50 years with Göttingen Minipigs

**7 May 2019 at 09:30-16:30**

**Venue:** Room O.02, Building O, University of Antwerp, Universiteitsplein 1, B-2610 Wilrijk, Belgium  
By car: take Parking 2; By bus: take Bus 17 (stop Fort VI-sstraat)

**Co-host:** Department of Veterinary Sciences, Faculty of Biomedical, Pharmaceutical and Veterinary Sciences, University of Antwerp

**Registration:** By email to [spp@minipigs.dk](mailto:spp@minipigs.dk) before 24 April 2019 – Registration is free and includes both lunch and networking drinks

09:30-10:00	Registration and coffee
10:00-10:05	Welcome. Lars Friis Mikkelsen, Ellegaard Göttingen Minipigs A/S, Denmark
10:05-10:30	Right from the start: 50 years with Göttingen Minipigs. Peter Vestbjerg, Ellegaard Göttingen Minipigs A/S, Denmark
10:30-11:00	The use of Göttingen Minipigs in toxicology and beyond over more than 30 years at Citoxlab. Andy Makin, Citoxlab, Denmark
11:00-11:30	Göttingen Minipigs in juvenile toxicity studies: a pharmaceutical perspective. Bianca Feyen, Janssen Pharmaceutica NV., Belgium
11:30-12:00	The Göttingen Minipig as translational model for drug metabolism in man. Steven Van Cruchten, University of Antwerp, Belgium
12:00-13.00	Lunch
13:00:13:30	Recombinant CYP450 enzymes of the Göttingen minipig: an in vitro tool for metabolic clearance prediction. Miriam Ayuso, University of Antwerp, Belgium
13:30-14:00	The developing Göttingen minipig and conventional pig: differences in hepatic CYP450 protein abundance and activity data. Laura Buysens, University of Antwerp, Belgium
14:00-14:30	Coffee break
14:30-15:00	The minipig - a translational model for regional myocardial ischemia/reperfusion. Piet Claus, Katholieke Universiteit Leuven, Belgium
15:00-15:30	Göttingen Minipigs as non-rodent species – specific advantages. Henrik Duelund Pedersen, Ellegaard Göttingen Minipigs A/S, Denmark
15:30-16:30	Networking and celebration of 50 Years with Göttingen Minipigs

**You are welcome to share this invitation with relevant colleagues**
